1	4892	Aamir Ali Shaikh	Muhammad Hanif Shaikh	229.5	74.3	60.39	64.56

Success Story:

"I have always dreamt of studying in an institute like IBA Karachi where students are provided a lot of opportunities to groom themselves, and to make the best use of the resources provided to them. To become a part of IBA has always been the most difficult task for me as I didn't have enough appropriate financial and educational resources available to me. When I got selected in IBA's SFP Program –Batch 2015, this marked a new beginning in my life. I learnt moral ethics, problem solving and became a confident person who can survive in this competitive world, along with my subjective studies in SFP. I belong to a place where almost no one thinks of getting into highly reputed institutions, but after getting into IBA, I realized that I should make everyone aware of this world and pursue them to be a part of it. SFP has empowered me to make a change in society where I live and to revolutionize the mindset of the people there. This all became possible because of my father who was the source of constant motivation for me to work hard, and Sindh foundation Program to provide me such an amazing platform. I want to thank CDP Govt. Of Sindh, Dr. Ishrat Husain- Dean and Director, Dr. Zeenat Ismail- Coordinator SFP, and her team for providing me such a great opportunity."
